Hello Three-Way Group,

The US EPA received your request for a manufacturer code. Three-Way Group Ltd was given the code **TWG** on April 27, 2016. This code is still valid and should be used when submitting documents to EV-CIS (formerly Verify). I have attached the information currently on file for Three-Way Group.

You may need to update your user information. Please go to <https://www.epa.gov/vehicle-and-engine-certification/how-register-engines-and-vehicles-compliance-information-system-ev>.

Thank you,
